

PRACTICAL 1

Project Initiation, Requirement Analysis, Sitemap, Wireframe, and GitHub

1. Aim

To initiate the Student Hub web application project by analysing its requirements, designing the sitemap and navigation flow, preparing wireframes for all pages, and setting up a GitHub repository for version control.

Sitemap and navigation flow

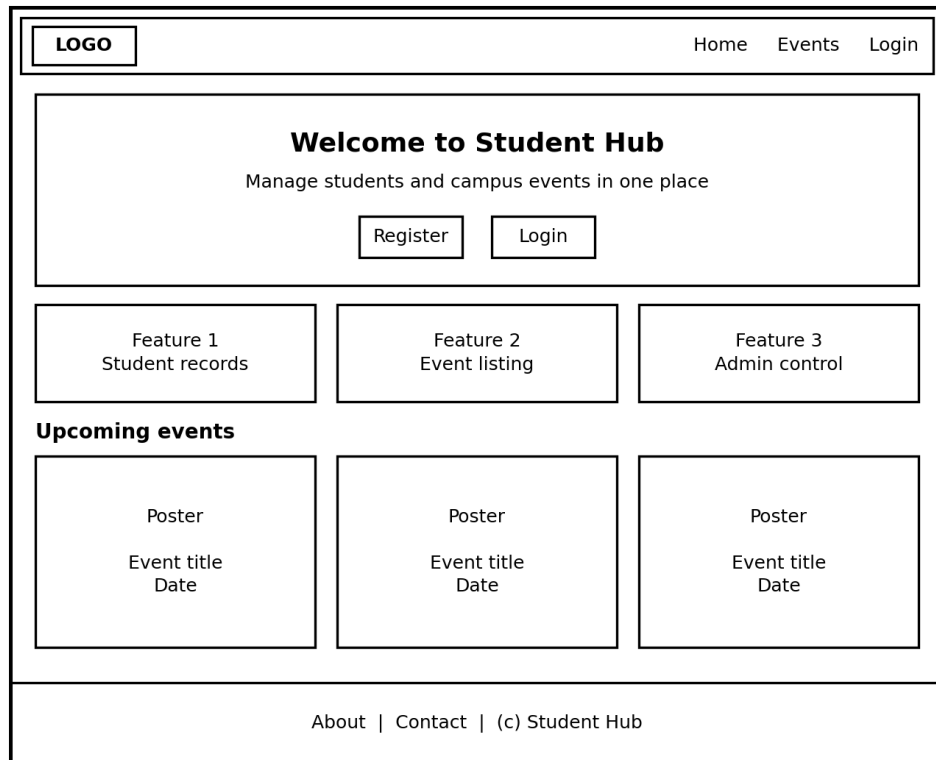

Sitemap and navigation flow of Student Hub

Wireframes

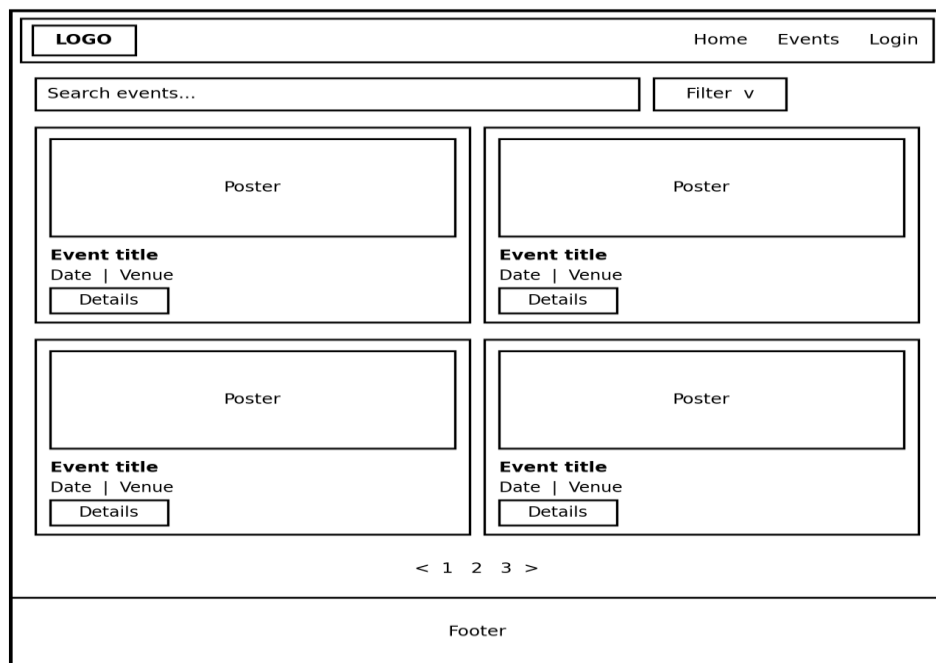

Low-fidelity wireframes were prepared for all 10 pages to plan layout and navigation before development.

1 Home page

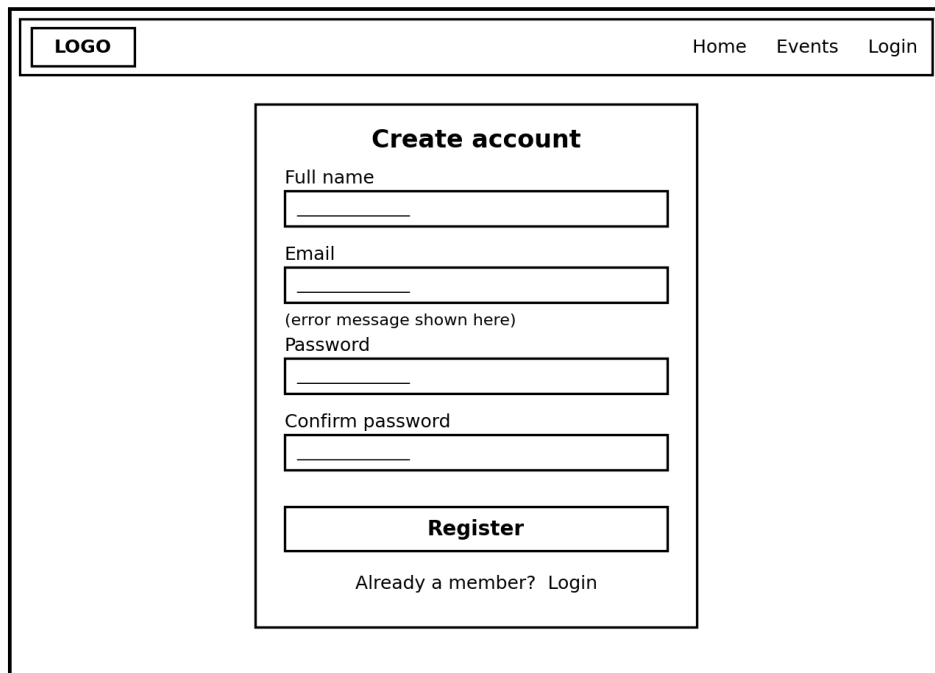

Home page wireframe

2 Events page

Events page wireframe

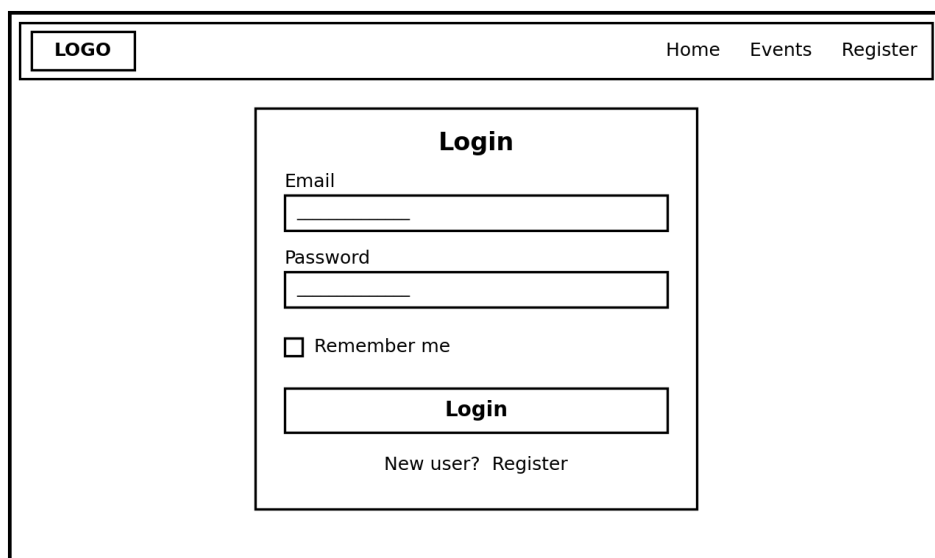

3 Register page

The wireframe for the Register page features a header with a 'LOGO' placeholder on the left and navigation links 'Home', 'Events', and 'Login' on the right. The main content area is centered and contains a 'Create account' form. This form includes input fields for 'Full name', 'Email', 'Password' (with a note '(error message shown here)' below it), and 'Confirm password'. A 'Register' button is positioned below these fields, followed by a link 'Already a member? Login'.

4 Login page

The wireframe for the Login page has a header with a 'LOGO' placeholder on the left and navigation links 'Home', 'Events', and 'Register' on the right. The main content area is centered and contains a 'Login' form. This form includes input fields for 'Email' and 'Password', a 'Remember me' checkbox, and a 'Login' button. Below the button is a link 'New user? Register'.
